

# HAPPY LABOR DAY

Labor Day was created by the labor movement and is dedicated to the social and economic achievements of American workers. In 1894, one year after IATSE was formed, Congress passed an act making the first Monday in September of each year a National Holiday. As we celebrate the achievements of Labor, let us never forget the struggle of those that founded and helped to establish Local 2, many of which now rest in peace at Mount Carmel (left) and Glen Oakes Cemetery (right).
